REPORTS ON WORK
IN OIL SECTIONDrilling Test Wells in the
West Union District at
Present.

In Bedford Hollow, Loudon district, Kanawha county, W. Va., located one mile south of Marmot on the Kanawha River, Ira G. Sayer has drilled a test on the William Bradford tract into the Big Lime formation and has a producer, reported good for 40 barrels a day. An oil producer in the locality named is an innovation. Quite a number of gas wells have been completed in the immediate vicinity. Whether the Bradford tract well is the forerunner of a Big Lime pool or a freak remains to be determined. A large amount of test work has been completed in Loudon district in past years, but the result was generally gas wells.

Located in Big Sandy district, Kanawha county, the Lawrence Oil company is down 1,700 feet and fishing at a second test on the Mitchell-Meadows farm. In the same district the United Fuel Gas Company is hauling big timbers to the location for a test on the Ida Weaver farm. Jackson county has more test work under way and starting than at any time since development work began. In Washington district there are 16 wells drilling and starting.

On West Fork of Little Kanawha River, Burning Springs district, Wirt county, the Federal Oil and Gas Company has now drilled its test on the Jerome Tucker farm through the Berea grit. It is located one-half mile east of the same company's No. 6 on the Emma Devore farm and is a duster. In the same district the Roberts Oil Company has started to drill No. 125 on the Rathbone Oil tract.

In Clay district, Wirt county, the Kluge Oil Company has moved in a drilling machine to a location for a test on the James McKay farm. W. C. Patterson has the rig completed for No. 20 on the J. S. Swisher farm. In Harper district, Roane county, the Carter Oil Company is rigging up to drill its test on the Henry Young farm to the lower sands. In the same district the Columbia Carbon Company, after a fruitless fishing job at its test on the Elijah Taylor farm, has skidded the rig and started a new hole.

In Grant district, Doddridge county, the Carter Oil Company has drilled through the Gordon sand at its test on the W. W. Spencer farm. Nothing was found in that formation. A light show of oil was encountered in the Big Injun sand. It will be given a test. In Clay district Ritchie county, the Hope Natural Gas Company has a rasser in the Big Injun sand at No. 5 on the G. W. Thomas farm.

In West Union district, Doddridge county, the Carter Oil Company is due in the Keener sand at a test on the John Keener farm. In McDowell district, Tyler county, Snyder & Co. have shut down on account of broken rods at their test on the E. B. Woodburn farm. In Greene district, Wetzel county, the Carnegie Natural Gas Company is rigging up a test on the Zaddock J. Morgan farm. In the same district the Manufacturers Light and Heat Company is fishing at its test on the A. T. Fair farm. In Winfield township, Marion county, the Hope Natural Gas Company is starting to drill a test on the M. A. Hayburn farm. In Otter district, Clay county, the Carter Oil Company has a rig up for a test on the J. B. Boggs farm.

New York

NEW YORK, April 7.—Liberal offerings of call money at six per cent., the lowest initial bid renewal rate in six weeks, furnished the chief incentive for yesterday's active and strong stock market.

There was cumulative evidence, also

of a slight easing of time money, interior banks with local reserves making short term loans here at slight concessions from maximum quotations of the past fortnight.

Foreign exchange was not a factor, remittances to London recording a further reaction from yesterday's substantial rally, while francs were heavy and the dollar exceeded all previous points of discount at 20.80 to the dollar.

Steele and railway equipments bulked large in the day's diversified dealings at extreme gains of 1 to 7 points, but motors and kindred specialties, as well as oils, metals and food shares also contributed their share.

Rails were more active than usual, but gains in that division were limited at best being among the first to yield in the realizing movement of the last hour. Various miscellaneous issues and utilities registered variable advances notably textiles, chemicals and utilities. Sales amounted to 1,175,000 shares.

The strength of industrials, especially those comprising the equipment group was accompanied by reports that details of a large "revolving fund" having government support would soon be announced.

Buying of coppers was due to continued improvement of trade conditions and rumors that negotiations are under way for extensive sales of the metal to foreign interests under the auspices of an American organization.

Rails and international issues held firm in the bond market, with irregularity in the Liberty group. Anglo-French 5's rose to 98.55 a new high for the movement. Total sales (par value) \$125,500,000 old United States bonds unchanged on call.

Pittsburgh

PITTSBURGH, April 7.—The Pittsburgh stock market was somewhat erratic yesterday, but the undertone was firm and several issues made substantial advances, while others were sharply down. United States Glass was active and strong, advancing 2 1/2 points, and Columbia Gas and Electric was up 1 1/2 points. Key County Gas was up 1 1/2 points. New high record at 2 1/2. Fuel Supply continued strong and made a new high for the year. Arkansas Natural Gas common was again active and somewhat stronger. It gained 1/2. LaBelle Iron rose 1 1/2 and Electric common rose 3/4.

Pittsburgh Plate Glass dropped 2 points, Pittsburgh Oil and Gas lost 1 1/2, Westinghouse Airbrake lost 1 1/2 and Philadelphia company 6 per cent. preference delumped 1/4. Total sales amounted to 18,404 shares. In the bond market sales (par value) amounted to \$11,150. The market closed irregular, with a firm undertone.
